Objective

A motivated individual with in-depth knowledge of languages and development tools, seeking a position of **full stack web developer** in a growth-oriented company where I can use my skills to the advantage of the company while having the scope to develop my own skills.

Education

GRADUATE | 2018-2021 | ANDC, DU

B. Sc. Physical Science with Computer Science

Projects

AMAZON CLONE

· I code this Amazon Clone using reactjs. You can add products to the basket in real time. Basket total auto update in real time. Login done by email. Payment gateway using stripe.js. The database take order details and user information.

·

WHATSAPP CLONE

· I code this Whatsapp Clone using Nextjs. You can Sign In with Google authentication and chat with anyone with their email id. It support one to one messages. All chats update in real time.

·

SHORTEST PATH FINDER

· This fun project is code with vanilla JavaScript(no framework). You can find the shortest path between two nodes and can create wall for path finder.

·

MY PORTFOLIO

· This web page is coded with reactjs. You can sent response to me with get in touch form. Working on dark mode
